Calling the vet about dog diarrhea

Seek emergency help for collapse or possible poisoning or foreign-object ingestion. Making the call comes first.

- ☐ Check for blood, black stool, repeated vomiting, weakness or a painful or swollen belly.
- ☐ Call urgently for collapse or possible toxin or foreign-object ingestion.
- ☐ Write down timing, water intake, medications and possible exposures for the clinic.
- ☐ Ask the clinic whether it needs a sample and how to collect it.
