Puppy grooming visit checklist

- [ ] Confirm the services, when the groomer will pause and how they will contact you.
- [ ] Ask the vet about timing and gather the records the salon accepts.
- [ ] Write down one touch your puppy accepts and one they move away from.
- [ ] Tell the groomer about sore spots, food restrictions or recent health changes.
- [ ] At pickup, note what went well, where the groomer paused and one thing to practice.

If gentle touch seems painful or the skin looks sore, call your veterinarian before that area is groomed.
