Dog bowl washing checklist

- [ ] Set out drinking water in a clean spare bowl.
- [ ] Check the care label for the bowl and removable parts.
- [ ] Scrub the bowl, rim and grooves with warm soapy water.
- [ ] Rinse thoroughly and air-dry or use a clean towel.
- [ ] Refit any removable ring, refill the water bowl and wash your hands.

If your dog is sick, ask your veterinarian about adding disinfection to the washing routine.
